The Strategic Operations Inc. (STOPS) fake body parts are unique. To create truly Hyper-Realistic® effects and training aids, STOPS has moved away from the industry standard, stagnant, latex props and instead is focused on creating unparalleled training aids to better enhance real world emergency scenarios. The multi-disciplinary Special Effects Make-up Team caters to the specific needs of the client and provides exactly what is required to meet Training and/or Learning Objectives. The recreations accurately detail the range of grisly effects encountered during traumatic events; from suicide bombings, to dismemberment, and decomposition. The pictures in this catalog are a representative sample of the fake body parts available from STOPS. No one effect is exactly the same and all effects are fully customizable at time of order.

HEADS
